Hi Ryan,

Great speaking with you today. Per our conversation, below are the links we discussed and our contact information. Also attached is the letter from the Indiana delegation to EPA and our response. I'm still trying to reach our community involvement folks to get a draft agenda for our open house. I'll share that as soon as I get it. (And here's the link to our East Chicago website with additional information: <https://www.epa.gov/uss-lead-superfund-site>)
